Silicon Labs Announces Record Revenue

Broad-based Product Revenue Achieves All-Time High in Third Quarter

Our multi-year investment strategy in our MCU, wireless, sensor, power and timing products is driving strong results in our two largest markets, the Internet of Things and Internet Infrastructure, where we have continued to gain share and see exciting prospects for growth.

AUSTIN, Texas--(<u>BUSINESS WIRE</u>)--<u>Silicon Labs</u> (NASDAQ: SLAB), a leader in high-performance, analog-intensive, mixed-signal integrated circuits (ICs), today reported financial results for its third quarter ended September 27, 2014. Revenue in the third quarter exceeded the top end of guidance and established a new record at \$158.1 million, up from \$154.9 million in the second quarter.

Financial Highlights

On a GAAP basis:

- Gross margin was 60.8 percent
- R&D expenses were \$42.5 million
- SG&A expenses were \$44.0 million
- · Operating income as a percentage of revenue was 6.1 percent
- Diluted earnings per share were \$0.13

GAAP SG&A expenses include a \$6.0 million charge due to improved expectations regarding the achievement of the Energy Micro earn-out, reflecting strong performance in acquired 32-bit MCU revenue. The charge has an approximate \$0.14 per share impact.

On a non-GAAP basis (results exclude the impact of stock compensation, amortization from acquired intangible assets and certain other items as set forth in the reconciliation tables below):

- · Gross margin was 61.1 percent
- R&D expenses were \$34.8 million
- SG&A expenses were \$32.1 million
- Operating income as a percentage of revenue was 18.9 percent
- Diluted earnings per share were \$0.52

Business Highlights

- Broad-based revenue established a new record at \$80.3 million, driven by record performance in Silicon Labs' microcontroller, wireless and sensor products.
- Broadcast revenue exceeded expectations at \$53.1 million, which included \$2.1 million from a patent sale.
- Access revenue also exceeded expectations at \$24.8 million.

Product Highlights

- As a founding member of the <u>Thread Group</u>, announced the creation of a Thread software beta program for selected customers and ecosystem partners, helping them accelerate their product development plans for IP-based mesh networking.
- Introduced environmental and biometric sensing development kits that help developers simplify their designs in target
 applications including security systems, smart thermostats and wearables.
- Launched the industry's most advanced automotive tuner ICs, the <u>Si4790x family</u>, offering a global radio solution supporting all leading broadcast standards worldwide.
- Introduced the <u>Si534x "clock-tree-on-a-chip" clock portfolio</u>, providing the industry's lowest jitter and the greatest frequency flexibility, and supporting the use of a single clock to replace multiple timing components.
- Launched the <u>ClockBuilder Pro software tool</u> enabling designers to generate sophisticated clock configurations in less than five minutes, minimizing software development overhead and supporting the industry's shortest lead times.

Business Outlook

The company expects revenue in the fourth quarter to be in the range of \$155 million to \$161 million and anticipates another record in its Broad-based products. Fourth quarter diluted earnings per share are expected to be between \$0.12 and \$0.18 on a GAAP basis and between \$0.43 and \$0.49 on a non-GAAP basis.

"We are delighted to report record revenue in the third quarter and have set an all-time high in Broad-based product revenue," said Tyson Tuttle, CEO of Silicon Labs. "Our multi-year investment strategy in our MCU, wireless, sensor, power and timing products is driving strong results in our two largest markets, the <u>Internet of Things</u> and <u>Internet Infrastructure</u>, where we have continued to gain share and see exciting prospects for growth."

Webcast and Conference Call

A conference call discussing the quarterly results will follow this press release at 7:30 a.m. Central time. An audio webcast will be available on Silicon Labs' website under Investor Relations (www.silabs.com). A replay will be available after the call at the same website listed above or by calling 1 (855) 859-2056 or (404) 537-3406 (international) and entering conference ID 39717390. The replay will be available through November 23, 2014.

About Silicon Labs

Silicon Labs (NASDAQ: SLAB) is a leading provider of silicon, software and system solutions for the Internet of Things, Internet Infrastructure, industrial control, consumer and automotive markets. We solve the electronics industry's toughest problems, providing customers with significant advantages in performance, energy savings, connectivity and design simplicity. Backed by our world-class engineering teams with unsurpassed software and mixed-signal design expertise, Silicon Labs empowers developers with the tools and technologies they need to advance quickly and easily from initial idea to final product. www.silabs.com

Forward-Looking Statements

This press release contains forward-looking statements based on Silicon Labs' current expectations. The words "believe," "estimate," "expect," "intend," "anticipate," "plan," "project," "will" and similar phrases as they relate to Silicon Labs are intended to identify such forward-looking statements. These forward-looking statements reflect the current views and assumptions of Silicon Labs and are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. Among the factors that could cause actual results to differ materially from those in the forward-looking statements are the following: risks that Silicon Labs may not be able to maintain its historical growth; quarterly fluctuations in revenues and operating results; difficulties developing new products that achieve market acceptance; dependence on a limited number of products and customers; intellectual property litigation risks; risks associated with acquisitions and divestitures; product liability risks; difficulties managing our distributors, manufacturers and subcontractors; inventory-related risks; difficulties managing international activities; risks that Silicon Labs may not be able to manage strains associated with its growth; credit risks associated with our accounts receivable; dependence on key personnel; stock price volatility; geographic concentration of manufacturers, assemblers, test service providers and customers in Asia that subjects Silicon Labs' business and results of operations to risks of natural disasters, epidemics, war and political unrest; debt-related risks; capital-raising risks; the competitive and cyclical nature of the semiconductor industry; average selling prices of products may decrease significantly and rapidly; information technology risks; conflict mineral risks and other factors that are detailed in the SEC filings of Silicon Laboratories Inc. Silicon Labs disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. References in this press release to Silicon Labs shall mean Silicon Laboratories Inc.
