### Silicon Labs Announces Third Quarter 2020 Results

-- Strong Results Driven by Record IoT Revenue --

AUSTIN, Texas, Oct. 28, 2020 /PRNewswire/ -- Silicon Labs (NASDAQ: SLAB), a leading provider of silicon, software and solutions for a smarter, more connected world, today reported financial results for its third quarter ended October 3, 2020. Revenue exceeded the top end of the guidance range at\$221.3 million, up from \$207.5 million in the second quarter. Third quarter GAAP and non-GAAP diluted earnings per share (EPS) were\$0.07 and \$0.73, respectively.

"Third quarter revenue exceeded the high end of our guidance range at\$221.3 million," said Tyson Tuttle, CEO of Silicon Labs. "Revenue was considerably stronger than expected, with our IoT products leading the way with a record quarter. We see sustained acceleration towards a more connected world, which our products are well-suited to address."

### Third Quarter Financial Highlights

- loT revenue grew to \$133.2 million, up 16% sequentially and 3% year-on-year.
- Infrastructure and Automotive revenue declined to \$88.2 million, down 5% sequentially and 6% year-on-year.

#### On a GAAP basis:

- GAAP gross margin was 58.8%.
- GAAP R&D expenses were \$72 million.
- GAAP SG&A expenses were \$48 million.
- GAAP operating income as a percentage of revenue was 4.3%.
- GAAP diluted earnings per share was\$0.07.

On a non-GAAP basis, excluding the impact of stock compensation, amortization of acquired intangible assets, restructuring charges, non-cash interest expense and other costs associated with convertible notes, and certain other items as set forth in the reconciliation tables below:

- Non-GAAP gross margin was 59.5%.
- Non-GAAP R&D expenses were \$56 million.
- Non-GAAP SG&A expenses were \$39 million.
- Non-GAAP operating income as a percentage of revenue was 16.9%.
- Non-GAAP diluted earnings per share were \$0.73.

#### **Product Results**

- Expanded our Bluetooth<sup>®</sup> Low Energy portfolio this quarter with the launch of the BGM220S and BGM220P modules. At just 6x6 mm, the BGM220S is one of the world's smallest Bluetooth modules. It provides ultra-small size, low-cost, and long battery life to add turnkey Bluetooth connectivity to a variety of end products.
- Launched the <u>Si54x/6x Ultra Series</u>, a new family of small form-factor, high-performance crystal oscillators. The Si54x/6x Ultra Series delivers jitter performance as
  low as 80 femtoseconds for integer and fractional frequencies across the entire operating range, providing outstanding jitter margin for demanding applications
  including data center interconnect, optical transport, broadcast video and test/measurement.
- Introduced new <u>Si823Hx/825xx</u> isolated gate drivers offering a combination of faster and safer switching, low latency and high noise immunity capabilities that
  enable power converter designers to meet or exceed increasing energy efficiency standards and size constraints in a variety of applications including data center
  and industrial power supplies, micro inverters for solar power, and traction inverters for the electric vehicle market.

### **Business Highlights**

- Announced collaboration with Amazon to support Sidewalk, a secure network created by neighbors who share a small portion of Wi-Fi bandwidth to help their devices work better at home and beyond the front door. Sidewalk is a free software application layer that works on top of our Wireless Gecko Series 2 products to support Sidewalk's sub-GHz and Bluetooth Low Energy protocols and permit IoT devices to securely connect to each other through the cloud.
- Held our first-ever Works With smart home developer conference with leaders from the world's largest smart home ecosystem players including key executives
  from Google, Amazon, Ring, and Comcast. Our Works With conference provided an onramp enabling smart home developers to directly engage with the biggest,
  most popular smart home ecosystems through co-authored curriculum featuring 40 technical sessions, 12 hands-on workshops and six keynotes spanning 40
  hours of high quality, high engagement content.
- Debuted our new Secure Vault technology for Silicon Labs' multiprotocol Wireless Gecko Series 2 platform. Our products are the first with radios to earn ARM's
  PSA Level 2 security certification. We also received SmartCert security certification from the ioXt Alliance and were awarded a Gold medal in the 2020 LEAP
  Awards Connectivity category for best-in-class security.
- Released Simplicity Studio 5, which is the latest version of our free to use, class-leading IoT developer environment. Simplicity Studio now offers universal access and an enhanced experience across a wide range of wireless protocols, all within a new, intuitive and responsive web-style user interface allowing customers to accelerate differentiation and time to market.
- Announced our collaboration with STRATIS on their 3.0 Gateway which uses Silicon Labs' connectivity products to provide multiprotocol wireless capabilities
  connecting smart devices throughout apartment communities. This new industrial IoT application enables residents to use their smartphones as a credential to
  enter the apartment building and their fully equipped smart apartment unit. The system also allows property managers to control energy usage and smart
  technology in vacant units and monitor common areas.
- Continued to focus on addressing health and safety during the ongoing pandemic by collaborating with our customers to expedite time-to-market of impactful products. For example, we worked with <a href="Maggy">Maggy</a>, a Belgium-based start-up, to use our <a href="BGM13S">BGM13S</a> Bluetooth module to enable a new, compact social-distancing wearable that warns users when the distance between people becomes too small and could pose a risk of COVID-19 infection transfer.
- <u>Promoted</u> Serena Townsend to Silicon Labs' Chief People Officer to lead the company's global talent strategy, people programs, and values-driven, inclusive culture.

## **Business Outlook**

The company expects fourth quarter revenue to be in the range of \$221 to\$231 million, with IoT and Infrastructure & Automotive up, and estimates the following:

### On a GAAP basis:

- · GAAP gross margin at approximately 59%.
- GAAP operating expenses at approximately \$123 million.
- GAAP effective tax rate of 0.0%.
- GAAP diluted earnings per share between\$0.02 and \$0.12.

On a non-GAAP basis, excluding the impact of stock compensation, amortization of acquired intangible assets, acquisition related charges, restructuring charges, non-cash interest expense and other costs associated with convertible notes, and certain other items as set forth in the reconciliation tables below:

- · Non-GAAP gross margin at approximately 59%.
- Non-GAAP operating expenses at approximately \$95 million.
- Non-GAAP effective tax rate at 13.0%.
- Non-GAAP diluted earnings per share between\$0.68 and \$0.78.

#### **Webcast and Conference Call**

A conference call discussing the quarterly results will follow this press release af7:30 a.m. Central time. An audio webcast will be available on Silicon Labs' website (<a href="www.silabs.com">www.silabs.com</a>) under <a href="https://linearch.com">Investor Relations</a>. A replay will be available after the call at the same website listed above or by calling 1 (877) 344-7529 (US) or (412) 317-0088 (International) and entering access code 10145993. The replay will be available through November 28, 2020.

#### **About Silicon Labs**

Silicon Labs (NASDAQ: SLAB) is a leading provider of silicon, software and solutions for a smarter, more connected world. Our award-winning technologies are shaping the future of the Internet of Things, Internet infrastructure, industrial automation, consumer and automotive markets. Our world-class engineering team creates products focused on performance, energy savings, connectivity and simplicity. silabs.com

#### **Forward-Looking Statements**

This press release contains forward-looking statements based on Silicon Labs' current expectations. The words "believe," "estimate," "expect," "intend," "anticipate," "plan," "project," "will" and similar phrases as they relate to Silicon Labs are intended to identify such forward-looking statements. These forward-looking statements reflect the current views and assumptions of Silicon Labs and are subject to various risks and uncertainties that could cause actual results to differ materially from expectations. Among the factors that could cause actual results to differ materially from those in the forward-looking statements are the following: the impact of COVID-19 on the U.S. and global economy, including the restrictions on travel and transportation and other actions taken by governmental authorities and disruptions to the business of our customers or our global supply chain that have occurred or may occur in the future, the ongoing impact of COVID-19 on our employees and our ability to provide services to our customers and respond to their needs; risks that Silicon Labs may not be able to maintain its historical growth; quarterly fluctuations in revenues and operating results; difficulties developing new products that achieve market acceptance; risks associated with international activities (including trade barriers, particularly with respect to China); intellectual property litigation risks; risks associated with acquisitions and divestitures; product liability risks; difficulties managing Silicon Labs' distributors, manufacturers and subcontractors; dependence on a limited number of products; absence of long-term commitments from customers; inventory-related risks; difficulties managing international activities; risks that Silicon Labs may not be able to manage strains associated with its growth; credit risks associated with its accounts receivable; dependence on key personnel; stock price volatility; geographic concentration of manufacturers, assemblers, test service providers and customers in Asia that subjects Silicon Labs' business and results of operations to risks of natural disasters, epidemics or pandemics, war and political unrest; debt-related risks; capital-raising risks; the competitive and cyclical nature of the semiconductor industry; average selling prices of products may decrease significantly and rapidly; information technology risks; cyber-attacks against Silicon Labs' products and its networks; conflict mineral risks and other factors that are detailed in the SEC filings of Silicon Laboratories Inc. Silicon Labs disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. References in this press release to Silicon Labs shall mean Silicon Laboratories Inc.

Note to editors: Silicon Laboratories, Silicon Labs, the "S" symbol, and the Silicon Labs logo are trademarks of Silicon Laboratories Inc. All other product names noted herein may be trademarks of their respective holders.
